LOGNOTE -- Chief, Operations Group, 2 May 1985

1.  Following from this morning's staff meeting:

25X1

- All DD/S&T promotions from GS-13 to GS-14 have been held up because the DD/S&T is short of position grade points. The matter was referred to D/Pers who was asked to release the promotions as the Agency overall has ample unused points.
- DD/S&T met with DD/A and his office chiefs and asked them to try to adopt a "service" attitude from the top down.
- A new recruiter is being appointed for the Chicago area and another for the Alaska, Washington, California area. Both will visit FBIS for briefings.
- Biostar is now in operation in OCR and demonstrations can be scheduled.
- ED will descope a number of design tasks for Logicon and the contract will be allowed to expire by the end of the fiscal year.
- D/Pers has allocated temporary grades to SDS, for three years, to permit more effective staffing and retention.

(cc: C/DRD, C/ED, C/MOD)
